Architect's Note

The Vision

“We wanted to leverage the natural landscape of paddy fields, mangrove forests and the Nerul river, and create a residential habitat that is at one with nature, yet comes alive with a range of self-contained social amenities.”

We designed the building so that each apartment extracts unrestricted views of its surroundings, allows natural light in, and ensures privacy.

Enchanting Landscaping

The Flora & Fauna

Community spaces feature Spanish-style plazas interspersed with gardens and fountains. The landscaped and sit-out spaces feature tropical plantations, numerous art objects, and piped music, creating a sensorial experience that completes the Spanish-Goan Garden of Eden leitmotif. The existing chapel has been astutely blended into the property so as to create a truly distinctive, endearing and heavenly experience.
